

## Vitro will invest in the construction of a new Glass Containers furnace.

**San Pedro Garza Garcia, Nuevo Leon, Mexico, October 12, 2021.**- Vitro, S.A.B. de C.V. (BMV: VITROA), hereinafter "Vitro" or the "Company", today announced an investment of approximately \$70 million dollars for the construction of a new Glass Containers furnace at its plant located in Toluca, State of Mexico.

The investment was approved by the Board of Directors in order to compensate the increase in demand for glass containers in the segments in which we participate.

"This new furnace will have the best technology for the glass manufacturing process with high quality, design and level of sophistication. With this we will offer greater availability of value-added products," said Adrian Sada Cueva, CEO of Vitro. "The Company manufactures the finest glass containers worldwide, and this investment confirms Vitro's commitment to offer the highest level of service to its customers and the markets in which we participate."

In 2007, Vitro started operations in one of the largest glass containers plants in the world to meet, among others, the requirements of the packaging markets for cosmetics, fragrances, toiletries and pharmaceuticals with high quality and efficiency standards.

"The new furnace will provide additional capacity to offer and support our customers and their growing requirements for glass containers, providing a higher level of service in the regions and segments where we participate. The furnace will have state-of-the-art technology to manufacture high-value-added glass containers with sustainable processes," said Shlomo Fryerman, Director of Glass Containers.

Construction of the new furnace will begin this year and start its operation in the first half of 2023.

*Vitro, S.A.B. de C.V. (BMV: VITROA) is a leading glass manufacturer in North America and one of the world's major companies in its industry, backed by more than 100 years of experience. Founded in 1909 in Monterrey, Mexico, the Company has subsidiaries around the globe, offering quality products and reliable services to meet the needs of two businesses: flat glass and glass containers. Companies of Vitro produce, process, distribute, and market a wide range of glass articles, which are part of the daily life of thousands of people. Vitro offers solutions for multiple markets, including architectural and automotive as well as cosmetic, pharmaceutical and toiletries. The Company is also a supplier of chemical products and raw material, machinery, molds and equipment for industrial use. As a socially responsible organization, Vitro works on several initiatives aligned to its Sustainability Model, aiming to create a positive influence in the economic, social, and environmental aspects relevant to its stakeholders, in a responsible corporate management framework.
